Whitney:　　*[Into Telephone]* No, I can't tomorrow night; I have my guitar lesson. Yes, I already have my calluses started. Okay, well maybe Saturday. I've got to go. I'll talk to you later. Bye.

Maria:　　Enough said? Yeah, okay.

Warren:　　_____ that decision. Hey, how you doing, Whitney?

Whitney:　　Hi. What's up?

Maria:　　Hi. I'm just going to jump in here.

Warren:　　Yeah.

Maria:　　We're starting to develop a new online venture, and we wanted to know if you could pull back on some of your Java programming for the online book site and work with Warren and Andrew and some others to develop prototypes for the online gaming venture?

Whitney:　　Develop?

Warren:　　From scratch.

Whitney:　　Wow, you're kidding? I have some great ideas for that.

Maria:　　Good. 'Cause we feel that this kind of shuffling of Judy's is going to be necessary if Can Go's going to grow.

Whitney:　　Well what about the book site?

Warren:　　What about it?

Whitney:　　Well I've put a lot into that. I mean Scotty and I practically have it down to a science. I think the site is better than it was a few months ago, don't you?

Maria:　　Oh, absolutely.

Warren:　　Absolutely.

Maria:　　All of that work is appreciated.

Warren: And with the new ventures will come some more money.

Whitney: Well, I think I can do both. It's just that I have so little free time as it is now, but-

Warren: Just think about it.

Maria: Well, it is – it's a lot to consider, so, you know what, take some time to think about it.

Whitney: I appreciate that. Thank you.

Warren: Okay? Great.

Whitney: Okay. Wow.

Narrator: Now take a look at the discussion questions. These questions will ask you to apply what you've learned in this episode to this case video.
